Best for	Front doors, garden walls, terraces and corridors

FITTED OUTSIDE

By the front door

Motion sensor, coming home

Along a garden wall

Level, above patio doors

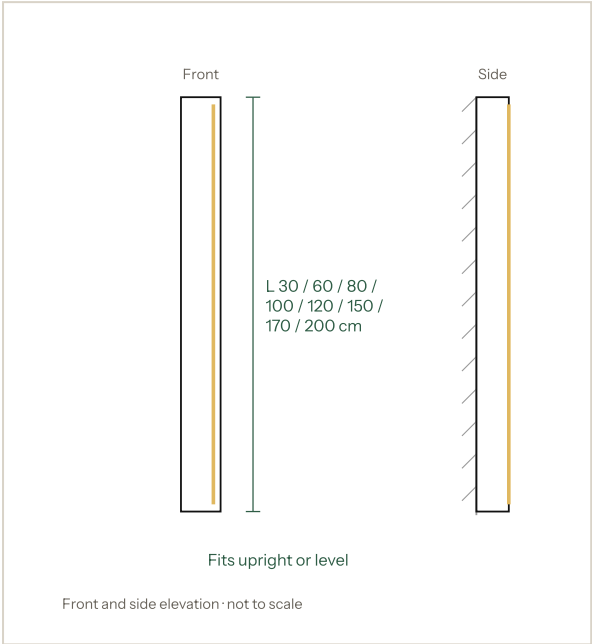

On a garden fence

Beside the garage

DIMENSIONS

Lengths	30, 60, 80, 100, 120, 150, 170 or 200 cm
Mounting	Upright or level, on the wall

PLACEMENT GUIDE

Beside a front door	One each side, centred at about head height; 30–60 cm lengths suit most doors.
Along a garden wall	Space several evenly, about 1.5–2 m apart, so the light reads as a rhythm.
Above patio doors	Mount a longer bar level, just above the frame, with the light washing down.

DETAILS

Sealed to IP65

Black metal body, opal diffuser

Mounted level

INSTALLATION & CARE

- Rated IP65: sealed against rain and damp for outdoor use.
- Must be connected to the mains by a qualified electrician, in line with current UK wiring regulations.
- Switch off at the mains before fitting, cleaning or changing a bulb.
- The LED is integrated: there is no bulb to change.
- Wipe the body and diffuser with a soft, damp cloth once switched off.
