PLACEMENT GUIDE

Beside a front door	One each side, centred at about head height; 30–60 cm lengths suit most doors.
Along a garden wall	Space several evenly, about 1.5–2 m apart, so the light reads as a rhythm.
Above patio doors	Mount a longer bar level, just above the frame, with the light washing down.

INSTALLATION & CARE

- For outdoor walls, connected to an outdoor supply by a qualified electrician.
- Switch off at the mains before fitting, cleaning or changing a bulb.
- Wipe the glass and frame with a soft, damp cloth once switched off and cool.
