| Projection | 12 cm |

## PLACEMENT GUIDE

| | |
|---|---|
| Beside a front door | One each side, the centre of the light at about head height. |
| On gate piers or pillars | Centred on the face of each pier, about two thirds of the way up. |
| Along a façade or garden wall | Space several evenly, about 1.5–2 m apart, at the same height. |

## DETAILS

Veined alabaster-effect panel

## INSTALLATION & CARE

- Rated IP65: sealed against rain for outdoor walls. Do not immerse in water.
- Must be connected to the mains by a qualified electrician, in line with current UK wiring regulations.
- Switch off at the mains before fitting, cleaning or changing a bulb.
- The LED is integrated: there is no bulb to replace.
