

The Mantel

Travertine and wood wall light, 2, 3 or 4 lights

A slim wooden bar holding short cylinders of natural travertine, each lit from within. The light washes softly up and down the wall, and the stone glows warm around its pitted edges.

PLACEMENT GUIDE

Above a mantelpiece	Centre it about 30–40 cm above the shelf; the 4-light suits most fireplaces.
Above a mirror or console	Choose a width a little narrower than the mirror, centred 10–15 cm above it.
Beside a bed	About 120–140 cm above the floor, one each side, clear of the headboard.

INSTALLATION & CARE

- For dry indoor rooms only (IP20). Not suitable for bathrooms or outdoor use.
 - Must be connected to the mains by a qualified electrician, in line with current UK wiring regulations.
- Switch off at the mains before fitting, cleaning or changing a bulb.
 - The LED is integrated: there is no bulb to change.
 - Travertine is a natural stone: dust it with a soft, dry cloth and avoid water or cleaning products.
