

The Rail

Rechargeable picture and mirror light

A slim bar of light on a small central mount, for above a mirror, a painting or a shelf. A built-in rechargeable battery means no wiring and no electrician; a touch switches it on and dims it.

Over a painting

Above a mirror

DIMENSIONS

Lengths	68 · 98 · 128 cm
Height	5 cm
Charging	USB cable, supplied

PLACEMENT GUIDE

Above a mirror	Centre the bar 5–10 cm above the frame, a little narrower than the mirror.
Over a painting	Choose a length about half to two thirds of the frame width, centred above it.
Over a sideboard or shelf	Fix it about 30–40 cm above the surface for an even wash of light.

INSTALLATION & CARE

- No mains wiring: the light runs on its built-in battery and needs no electrician.
- Charge fully over USB before first use; a full charge gives up to 4 hours of light.
- Fix with the screws and wall plugs supplied, or with adhesive on a smooth, clean surface.
- Wipe with a soft, dry cloth. No water or cleaning products on the diffuser.
